# ARCHITECTURE & DESIGN

## 10 OF STEAMBOAT'S FINEST HOMES

Steamboat Magazine reached far and wide into Steamboat Springs' local architectural and construction trades to find homes that deserve special attention. None of the homes featured here are for sale. All of them relied heavily upon local talent for everything from design and construction, to ironwork, woodwork and plaster finishes. The magazine received a wonderful array of submissions for this issue — and many that we look forward to unveiling for you in future issues. We hope you enjoy this tour of Steamboat's finest homes.
